

DOUGLAS FIR VINTAGE

In the vintage grade, the natural grain pattern of the wood, large color variations and, in addition to natural knots, knots and cracks filled with black putty, round knots and oval knots are allowed. **NOTE! The surface treatment may affect the appearance and tone of the painted area. The color variation includes a change in tone from pale yellowish to reddish, which is smoothed out by the rustic look. In the picture, Douglas fir in the shade Cotton.**

General grading picture

Special characteristics of the grade:

- filled crack (A)

- filled knot (B)
